

Useful websites to support maths learning at home

- Times Tables Rockstars (Key Stage 2)
 - <https://trockstars.com/>

Each child in Key Stage 2 has a login for Times Table Rockstars. The games (or battles) features times tables with their related division facts.

- Top Marks
 - <https://www.topmarks.co.uk/Interactive.aspx>

Top Marks offers fun, interactive games for the children to play. A popular game called 'Hit the Button' allows the children to practice their number bonds and times table knowledge which positively promotes fluency. This is a popular website that is used in class, especially in Key Stage 1.

- BBC Bitesize
 - Key Stage 1: <https://www.bbc.co.uk/bitesize/subjects/zjxhfg8>
 - Key Stage 2: <https://www.bbc.co.uk/bitesize/subjects/z826n39>

BBC Bitesize is a well-known resource that has fun games for both key stages to play. Each area helps to reinforce learning from school.

- Maths Bot
 - <https://mathsbot.com/manipulativeMenu>

Maths Bot is a website that allows the user to use manipulatives (physical equipment) on a screen. The children will be aware of some of the equipment displayed on the menu due to having used it in class. This website supports learning with homework or any home learning if physical equipment is not to hand.

- ICT Games
 - <https://www.ictgames.com/mobilePage/index.html>

ICT games provides fun games for both Key Stages, although mainly for Key Stage 1. Each area links with the national curriculum.

- Maths Playground
 - <https://www.mathplayground.com/>

Maths Playground focuses on addition, subtraction, multiplication and division.

- Maths Frame
 - Key Stage 2: <https://mathsframe.co.uk/>

Maths Frame offers a range of games for Key Stage 2. There is a section on the website which contains tablet friendly games.
