

Mathematics

In maths we will be exploring measurement including mass, capacity & temperature. We will be estimating, comparing and ordering different measurements. We will also be learning about clocks and fractions. We will be applying our knowledge to solve arithmetic and reasoning problems.

English

This term we are going to be writing instructions to make a sandwich, writing fact files about seagulls and describing the character 'Mr Grinling'. After half term we will write letters of complaint about the pirates living next door, retell the story of The Mousehole Cat and write a recount of our school trip. We will also write letters to our new class teacher at the end of the year. Each week's spelling rule will continue to be shared on EdShed and will be practised through weekly homework too.

Key Texts

Year 2 Seaside Rescue Summer 2023/2024

Humanities

This term we will be learning about Victorian seaside holidays, the RNLI, Grace Darling, The Titanic, the seaside as a habitat and how to keep safe at the seaside. We will find and compare different seaside locations around the

Religious Education

In RE this term, we will be looking at how important it is for Jewish people to do what God tells them. We will be looking at different religions and asking big questions.

PE

Indoor PE will be Dance and Athletics and outdoor PE will be Fielding and Striking and Invasion. We will be preparing for Sports Day.

Computing and Music

Our online safety topics this term are Health, Wellbeing, Lifestyle and Online Relationships. Our main topics are making music and spreadsheets. In music, we will be investigating pitch and rhythm.

PSHE

This term we will be focusing on 'Relationship' and 'Changing Me'. Within relationships we discuss different types of families, the importance of trust and friendships. With changing me we look at different types of life cycles and how our bodies change as we grow up.

Science

We are going to investigate materials and their properties. We will be looking at which materials are the most waterproof and how materials can change. We will also be investigating ocean habitats where we will look study food chains, adaptations and plastic pollution.

Art and DT

In art we will be making seascapes. We do some observational drawings of shells. In DT, we will plan and sew puppets and will be making pizzas for a pirate, pizza party.
