

## Mathematics

This term, we will apply our calculations and understanding of decimal numbers to converting units of measurements and calculating volume. We will also begin our units on shape including properties of 2D and 3D shapes, consolidate area and perimeter and use co-ordinates when translating and reflecting shapes. We identify, draw and measure angles using a protractor and read interpret information in tables and on graphs.

## English

As readers, we will continue to develop our summarising, clarification, predicting and retrieval skills using the core text *Who Let the Gods Out* by Maz Evans as well as a range of Greek myths. We will also continue to develop our inference skills and thinking about the author's use of language. As writers, we will consolidate a range of text types, including newspapers, persuasion, instructions and myths.

## History and Geography

As historians we will learn about the Ancient Greek way of life and how our lives have been influenced by this for example, democracy.

As geographers, we will consolidate our mapwork skills, comparing modern and Ancient Greece.

## Year 5 Ancient Greece Summer 2022

### Religious Education:

This term we will be exploring special places of worship and Holy books for a range of religions.

### Art / Design and Technology

As artists, we will explore proportion drawing in portraits with a link to the mythical character Medusa in different mediums. We will also work with clay to create a clay pot.

As designers, we will design, make and evaluate a Greek sandal.

### French

As linguists we will be embedding our pronunciation and practise simple question and answer exchanges. We will explore the agreement of feminine and masculine nouns in our reading and writing.

### Computing

This term, we will be learning to:

- Manage online relationships
- Use a spreadsheet
- Develop our word processing skills

### PSHE

This term, we will be following the Jigsaw scheme of work with a focus on online relationships and Changing Me. We will also link our PSHE to our science when completing our sex and relationships unit, with a focus on the changes experienced in puberty and the life cycle of humans.

### Science - Life Cycles.

As scientists, we will be comparing the life cycle of living things—including plants, animals and insects. We will also be learning about the human life cycle, including reproduction.

### PE

In addition to our weekly swimming, we will be developing our striking and fielding skills through the games of cricket and rounders as well as taking part in a range of athletics activities.
